Work Experience

Front-end Developer @ DinGæld | May 2019 - present

• Working primarily with front-end development (HTML/CSS/JS) and UI/UX design

Digital Brand Manager @ Carswip | May 2018 - March 2019

- Played a key role in the UI/UX design and QA testing of several new software products, as well as worked closely with an external developer partner to make these a reality
- Continuously developed on and improved the Carswip website, including a full redesign in early 2019 in connection with the launch of a new product (Carswip App for iOS and Android)
- Created content for the Carswip website, the Carswip blog, and social media channels
- Also worked with photo editing/retouching, lead generation, and customer support

Multimedia Designer @ Carswip | November 2017 - January 2018

- Took over the development of the new Carswip website from a third-party dev and launched the new site in mid-December
- · Also worked with photo editing/retouching, as well as production of web content for the new website

Intern @ Carswip | January 2017 - June 2017

- Primarily worked with UI/UX design and web development, as well as communication-related tasks
- Designed and developed a new web-based product using Ruby on Rails, HTML5, CSS3/Sass, and JavaScript/jQuery
- · Conducted market research for a new market, gaining insight into the potential for Carswip on this market
- Conducted a user survey to gain insight into the satisfaction level among customers

Education

Multimedia Design and Communication @ Business Academy Aarhus | 2015 - 2017
